***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to a method of detecting the presence in a sample of a polypeptide exogenously administered to a mammalian subject.

Group II, claim(s) 13-18, drawn to a composition for administering to a mammalian subject.

Group III, claim(s) 19-21, drawn to a tagged growth hormone.

Group IV, claim(s) claim(s) 22, drawn to nucleic acid encoding a tagged growth hormone; and claim 23, drawn to an expression construct.

Group V, claim(s) 24, drawn to a nucleic acid sequence comprising nucleotides 114-695 of Figure 2 (nucleotide sequence encoding a modified hGH which excludes a tag-encoding sequence).

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Not all of the inventions are related to a tagged polypeptide for as seen in Group V, the claim is drawn to a nucleic acid sequence which is a distinct chemical compound.

3. A telephone call was made to Paul N. Kokulis, Reg. No. 16,773, on 24 November 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1655

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

#### ***Sequence Rules Compliance***

5. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures. Applicant must comply with the requirements of the sequence rules (37 CFR 1.821 - 1.825) before the application can be examined under 35 U.S.C. §§ 131 and 132.

#### ***Conclusion***
